

# Little Green Valley

I see a candlelight  
I hear a mocking bird  
down in the little green  
down in the little green  
val - ley,  
val - ley,  
Where morning  
He's singing

glory vines are  
out a song of  
twining round my  
welcome just for  
door.  
me.  
Oh, how I  
And someone

wish I were there again  
waits by the garden gate  
down in the little green  
down in the little green  
val - ley,  
val - ley.  
That's where my  
When I get

homesick heart will  
back again how  
trouble me no  
happy I will  
more.  
be.  
There's only  
And by a

one thing that will  
little babbling  
give me con - so -  
brook once more we'll  
la - tion  
wan - der,  
and in a

thought that I'll be  
shady nook we'll  
back again some  
dream the hours a -  
day.  
way.  
And every  
And I will

night down upon my knees  
leave all my cares behind,  
I pray the lord to please  
go where I know I'll find  
take me  
sun - shine,  
Back to that  
Back to that

little old green  
little old green  
valley far a -  
valley far a -  
way.  
way.
